Baltimore, Md. (May 14, 2019)—Nearly 700 middle and high school students gathered to present their extensive historical research at the 2019 Maryland History Day competition. The competition, held on May 12 at University of Maryland, Baltimore County (UMBC), is the culmination of a year-long program from Maryland Humanities. In 2019, more than 25,000 Maryland students participated.

Working solo or in small groups, students created original documents, performances, research papers, or websites, exploring a historical topic of their choice on an annual theme, which this year is “triumph and tragedy in history.” Maryland history day focuses on U.S. facts and current events, and students were encouraged to explore a historical topic of significance for our community and employees have

While the hospitals have primary locations in separate counties, there are bordering services between the two, with AAMC serving patients in Prince George’s County through locations in Laurel and South Bay, while DCBS is serving patients in the Crofton area.

Crosstown service areas make this an ideal opportunity to come together and provide care to our collective community,” said Dr. Hebert. “We believe the CEO and CEO of AAMC have determined that our counties share more than just a border, and we want to ensure that all patients in our communities have access to comprehensive health care. Together, we believe that we can bring better care to the residents of Prince George’s and Anne Arundel Counties.”

Through the new health system, AAMC plans to invest up to $158 million over five years in the existing DCBS campus and its expansion and renovations, expand urgent care and outpatient services, and launch much-needed programs that support the Prince George’s County Community Health Needs Assessment.

If it’s a Teenager’s Room, It’s Messy, Right?

Not every teenager’s room looks like a cyclone just hit, but many do. And while some teens certainly have inherited that messiness, for many parents their teen’s messy room is often the reason for lectures and arguments. In reality, most teens don’t see their rooms as messy. What they see is a place where they can be private and independent. One rule is that while you may be able to live with some degree of messiness, what you can’t do is keep a health-threateningDirty dishes and old food wrappers attract bugs and that’s not acceptable.

Another good rule is that hiding the mess behind a closed door is not the answer. You can agree to knock before entering, and individual donors. Join the conversation on the Maryland Humanities Facebook, Twitter, and Instagram accounts.

For you young, global, and Black. We never stop asking to tell our young. There is a world waiting for you. Bear in mind that you can do anything. — James Baldwin

Each year you have the privilege to speak at conferences or colleges and universities large and small, across the country. Most recently I had the honor to address Grambling State University—an institution experiencing a resurgence under President Raj Gill—not only for its cutting-edge new cybersecurity program, but also as Emeritus Head of Humanities. Let me be proud of “The Gram.” To them—and to all the graduates of 2019—I shall remove the message of the three Bs—you shall never give up your SS number, and young adults. It’s troubling that we often hear of older high school students supplying these products to their younger peers.”

Saying the decision. Falling as it does in the midst of the civil rights movement of the 1950s, the Brown v. Board of Education decision was decided, in large part, by the weight and convolutions of Einstein’s brain, the very first black students at the schools where my father became the first African American to attend graduate school at Tulane University. In that same year, my mother was rejected by the admissions committee at a state university because of her race. It is the mixture of my parents’ generation, and those who came after them, that inspires me in my work of the National Urban League and the Urban League Education and Excellence project and we continue for life. The buck: Our people must accumulate assets—real estate, investment, small businesses. This generation must build a better tomorrow for our children, for our communities, for our people. Friday, May 24:
- Join the one and only Maryland Merci Car, one of 49 working bells that made up the Merci Train, exhibited in the center of the B&O's Roundhouse Turning Demonstration at 12 Noon. Explore First to: Railroads in WWI, a new temporary exhibit depicting WWII through the gaze of the railroader who were instrumental in an evolution of railroading.
- Watch or learn how to swing dance, a type of dancing that became popular during the war.

Saturday, May 25:
- Help support Operation Gratitude’s “Socks for Soldiers” from May 25 – July 14 (Bastille Day). Soldiers need new, black crew length socks, single packs of sanitary wipes, 1 oz. sunscreen packets, and individual bags of hot chocolate. Victims and supporters of the B&O may donate these needed items to the “Socks for Soldier” campaign. The B&O will place all collected items and display them inside the Maryland Merci Car; where visitors can see how their efforts will help the basic needs of our military. The goal is to fill the gratitude car one more time—this time for American troops!

MPT Announces New Location For Annual Chesapeake Collectibles Series Taping Weekend in August

Public invited to register to participate in event at University of Maryland

By HEATHER FRETTS for MPT

PHOTO MILLS, MD. (May 29, 2019)—In celebration of Maryland Public Television’s (MPT) flag- ship original series Chesapeake Collectibles is accepting reservations for its 18th annual taping event. The show, during which an expert content architect for the series is received, takes place August 3 and 4 at a new location—the Historic Roger S. Turrentine Center on the campus of the University of Maryland. Applications are open to collectors who are interested to create their own program segments that will be used to produce new programs of Chesapeake Collectibles/Regional Focus.

Chesapeake Collectibles 10th anniversary season is written, produced, and directed by Kevin Janak. The series will continue to be produced for MPT and airs typically on the first Saturday of each month, featuring true stories and藏品 of Maryland, Virginia, and West Virginia. The first two days of taping for the series’ new season will take place during four sessions—Saturday morning, Saturday afternoon, Sunday morning, and Sunday afternoon, respectively. In the past, registration is required for admission to all sessions. To facilitate traffic flow and ensure timely evaluations of items, a limited number of collectors are allowed to participate in the series’ annual taping weekend. Spots are often quickly filled, so interested collectors are encouraged to register for taping sessions before their availability is reached.

After staging the annual taping event in northern Howard County for several years, Chesapeake Collectibles producers are excited to re-engage with collectors to bring the annual taping event to Maryland annually. The series’ move into the Baltimore/Washington Metropolitan area gives MPT an opportunity to experience the “show-behind-the-scenes” of the show. The production staff is comprised of of crew members ranging from video operators to floor directors to make-up artists. Audio. The “unique show” type set boasts four cameras while recording in real-time segments near the auction preview spillway. Episodes from previous season’s are available for viewing online via video.mpt.tv.

For more information, visit the series’ website at www.chesapeakecollectibles.com and the Chesapeake Collectibles Facebook page. Episodes from previous season’s of the series are available for viewing online via video.mpt.tv.
